Excellence in Gear Technology

APPLICATIONS EXCAVATORS COAL STACKERS

For last sixteen years we are manufacturing planetary gearboxes in India. More than 150000 gearboxes are working in a number of applications. Considering the need of indian industry and as a backward integration, we started the manufacturing of electric motors and over 25000 motors are in use now. Considering need of the indian market, we have now developed an import substitute product namely SLEWING RING BEARINGS. It is widely used in a number of applications in open field, construction area, off shore applications etc. with a perfect design and appropriate material with best inspection facility the product is manufactured and offered to serve the industry. We are proud to say that we are the only Indian manufacturers to offer this product. At present we have the capacity to manufacture slew ring bearings upto 3 meter diameter. We are here to serve you better.
